

Superintendent's Highlight of the Week

September 8, 2017

This is the year of State Champions in our POB community. At the recent Board of Education meeting the Board recognized the amazing performance of the Plainview Little League team that brought fame and immense pride to the community this summer. These young men and their dedicated coaches went all the way to the New York State Championship and put our town on the map. For the first time ever, in the 63-year history of Plainview Little League, they are State Champions!

At the meeting Tyler Stern described a nail-biting end to the 6th inning in the district sectionals when they were down 9-3 and mustered up the energy with grand slams that resulted in a 14 run swing in the next two innings. The rest was history.

The entire membership of the team are 8th graders at Mattlin and POB MS so we have a great deal to anticipate for our school teams this year. These students, Justin Antonucci, AJ Brower, Tyler Ciulla, Tyler Dady, Ryan Farrell, Jake Goldfarb, Josh Indek, Steven Kurre, Matthew Mullen, Hunter Scott and Tyler Stern and their coaches led by Paul Brower have worked hard and left everything on the field. We are incredibly proud of the giant ***Footprints of Excellence*** they have made to signal a wonderful beginning to the 2017-18 school year.
