## Art Supplies Goals

To supply all students and teachers with supplies needed to excel within the Art program here at POB.

	JFKHS	MMS	POBMS	JJP	OB	PAS	SR
<b>2018-19</b> <i>Adopted Budget:</i> <i>\$55,000</i>	Art supply budget allotments are determined by level of teaching and course specific at the HS. These allotments, per teacher, change annually and give teachers the ability to purchase all needed supplies for students throughout the year. All Art supplies are purchased for students, there is no required supply lists at any level. Additionally, all district-wide ink and filament costs are built into this budget for our vast number of traditional and 3D printers throughout the district.						
<b>2019-20</b> <i>Proposed Budget:</i> <i>\$60,000</i>	The proposed Art supply budget for the 2019-20 school year has increased, due to the increase of costs related to district-wide printers and 3D printers. All teacher allotments will still be determined by level and/or course, and all art supplies will be provided for all students.						
<b>2020-21</b>	The proposed Art supply budgets for the last three years of this plan will be determined by the number of Art classes offered to students K-12, and the number of staff members within the department,. As always, budget allotments will be determined by level and course, in order to ensure an equitable amount is provided for all students and teachers.  <i>Costs of printer ink and 3D printer filament are anticipated to continue to rise, and may warrant more allocated funds to supply all classroom teachers and students with the amount they need throughout the year.</i>
