Students with symptoms, including a temperature over 100° will be escorted to quarantine room and sent home.

Staff with symptoms or with temperature over 100° will be sent home.

Required medical attention of symptomatic students and staff who report symptoms of COVID.

Staff Roles Flow Chart

5th Grade Academy

- The Fifth Grade Academy was created to help our fifth graders adjust to middle school life and promote overall positive mental health well-being. It is a series of twenty-one, 40-minute lessons, delivered in core classes, physical education classes, and by guidance counselors.
- These lessons were created using New York State's Mental Health Education Literacy in Schools document, as well as The Seven Habits of Highly Effective People (LIM). Fifth graders will receive direct instruction on topics that include self-management, relationships, and resource management.
- Additionally, each lesson contains modifications for distance learning so that lessons can be delivered both in-person and online.
