

## Superintendent's Highlight

April 24th, 2020

POB Schools had special ways of celebrating the

50th anniversary of Earth Day this week. With the theme of

**#EarthDayAtHome**, students had the unique experience of celebrating and honoring our

Earth from their homes. The students at Judy Jacobs Parkway School in Mrs. Patino's Fourth Grade Class worked

on a Padlet, which is one of our virtual bulletin board platforms, to

post infographics they created about celebrating Earth Day at home. These infographics

were all created digitally with text, images, photos and clip art as students designed creative ways to

celebrate the Earth.

There have been many stories this Earth Day about the ways in

which the Earth is renewing from less traffic, pollution, and overall use. This is certainly something to celebrate!

The way that we all consider the Earth our home, we can pause to think about

how we can help to renew it this Spring. The Judy Jacobs Parkway School students also

consider another place their home: JJP! And, they spent time this week celebrating their home away from home through an

**#AtHomeSpiritWearChallenge**. Using the Padlet platform again, the students donned their best POB and JJP spirit wear

and posted photos for their friends and family to see. This celebration of their school, the Earth, and their home was one

to be remembered!

Check out these virtual bulletin boards to see how Earth Day and Spirit Week are both a celebration of home. Click on any of the photos or scan the QR codes to bring you to the Padlet walls to view some of these students' expressions and celebrations.
