

Superintendent Highlight February 7, 2020

Unity Day is a nationally recognized day that began in 2011 by the National Bullying Prevention Center. The purpose of Unity Day is to demonstrate that we all stand together against bullying. We are united for kindness, acceptance and inclusion of all students. This past fall each school celebrated Unity Day in their own special way with a wide range of activities.

Our Director of Guidance, Laurie Lynn, had a great idea to bring the entire POB district community together to celebrate the theme of Unity Day by creating a photo, pictured below. Each school formed a piece of the message, “*POB: Peace, Love and Happiness*” by having students and staff form into letters or symbols. The high school students spelled *POB*, Mattlin MS formed a peace sign, and POBMS formed a smiley face. Each elementary building formed one letter to spell out the word *LOVE*.

Thank you to all the staff members who helped assemble the students for these wonderful photos! Dr. Ben Wiley, the Director of Art and Digital Instruction put the finishing touches on the poster shown.

This POB family is united in this one message with #Pobpride.
