

AP Calculus AB/BC Summer Assignment

Assignment Description:

The summer assignment is a 90 question Delta Math assignment. This assignment encompasses key Precalculus topics and Algebra skills that are necessary throughout this year's Calculus course. I encourage you to google, YouTube, or use past notes and/or exams to help you complete this assignment.

How to Submit Work for the Assignment:

Written work for this assignment will be submitted via google classroom by the due date stated at the bottom of this document. When completing the assignment keep track of all your attempts and organize your written work by titling each topic you are working on, and the question number within that topic. Notation and organization are key components of this course and therefore poor organization, or general messiness will incur point deductions.

Grading:

The assignment will count as your first 20 point homework grade. Assignments/ written work that is submitted late will incur a 2 point deduction per day. Work that is sloppy, unorganized, or lacking in notation will incur a point deduction at the discretion of your teacher. Correct answers that show no correct and/or appropriate work with the question will receive no credit.
